The [**Program Administration Proposal, Review, Evaluation, and Submission System (PAPERS)**] **submission system   has now closed.**

Seminars are highly specific projects driven by a collaborative   research agenda leading toward publication. The main role of this unit   is to foster such collaborations and to do so, where possible, in a   public setting that allows auditors to gain insight into the project,   the process, and the people involved. Seminars continue working   throughout the year, via exchange of papers, bibliographies and   correspondence. They are expected to eventuate in publication(s).   Seminars meet for one two-and-one-half-hour session at each Annual   Meeting for a period of five years. Seminar participants (up to twenty)   precirculate papers and come to the Seminar's Annual Meeting session   ready to discuss them; papers should not be read at the session.   Auditors who are not among the seminar's participants are welcome.   Seminars are not renewable.
