# Call for Proposals

This Group seeks papers on the following topics:

- Religious environmental imaginations, histories, and movements relating to San Francisco and California such as radical environmentalism in the West (e.g., Edward Abbey and Earth First!), bioregionalism, eco-utopias, revisiting John Muir's religiosity, queer ecologies, and ecology and disaster

- The ecological in-between — exploring our relationships with everyday technology, exploring the ambiguous ethical stance of living toward a different ecological future from within consumer worlds, exploring the concept of "saving nature" while recognizing that nature is always in transformation, and exploring pets, working animals, gardens, and other nonhuman identities "in between" domestic/cultivated and wild

- Ecological hermeneutics, ecosemiotics, and ecocriticism (for a possible cosponsored session with the [SBL Ecological Hermeneutics Section](#) ) — multireligious, critical reflection on the ecohermeneutics of religious texts (such as the ecobible series); race, gender, and the hermeneutics of "nature"; and the "environmental movement"

## Mission

This Group critically and constructively explores how human–Earth relations are shaped by religions, cultures, and understandings of nature and the environment. We are self-consciously inter- and multidisciplinary and include methods such as those found in the work of theologians, philosophers, religionists, ethicists, scientists, and anthropologists, among others.

## Anonymity of Review Process

Proposals are anonymous to Chairs and Steering Committee Members during review, but visible to Chairs prior to final acceptance or rejection.
