

Call for Proposals

This Group welcomes proposals for individual papers and panels on the following issues in theology, religion, and culture that engage with Tillich or post-Tillichian thought:

- The concept of individual selfhood in cognitive psychology/neurotheology
- Radical doubt and ultimate concern in the postmodern matrix
- Does secularism have religious dimensions?
- Theological consequences of the economic crisis
- The turn to (Neo)Platonism in recent theology

Other Tillich-related proposals will be seriously considered. Unless otherwise requested, proposals not scheduled are automatically passed on to the [North American Paul Tillich Society](#) for possible inclusion in their Annual Meeting. A winning student paper receives the \$300 Annual Tillich Prize.

Mission

This Group fosters scholarship and scholarly exchanges that analyze, criticize, and interpret the thought or impact of Paul Tillich (1886–1965), and that use his thought — or use revisions of or

reactions against his thought — to deal with contemporary issues in theology, religion, ethics, or the political, social, psychotherapeutic, scientific, or artistic spheres of human culture. We cooperate with the [North American Paul Tillich Society](#) (a Related Scholarly Organization of the AAR), which is linked with the German, French-speaking, and other Tillich societies. Papers at our sessions are published in the Society's quarterly

[Bulletin](#)

without prejudice to their also appearing elsewhere.
